Welcome**Bob**
Call

To make a call, the visitor scrolls through the list of companies, selects the desired one and presses it. A list of residents is then displayed. Tap the name to be visited and the person will be called.
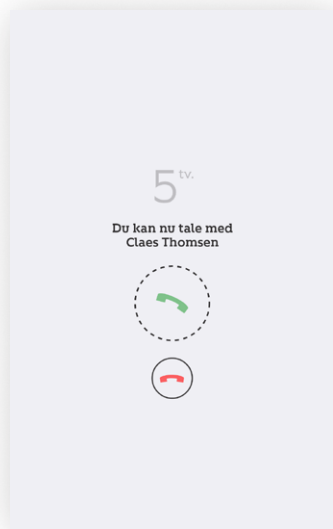

iOS

On an iPhone, the call looks like a phone call. Puch the WelcomeBob logo to answer and open the video feed from the door.
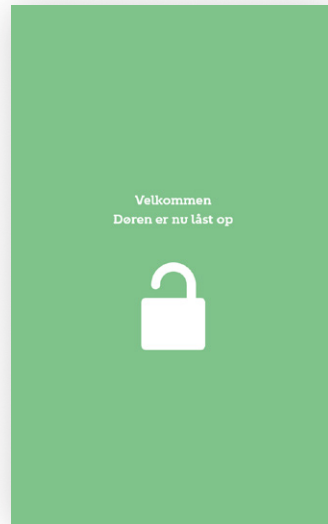

Android
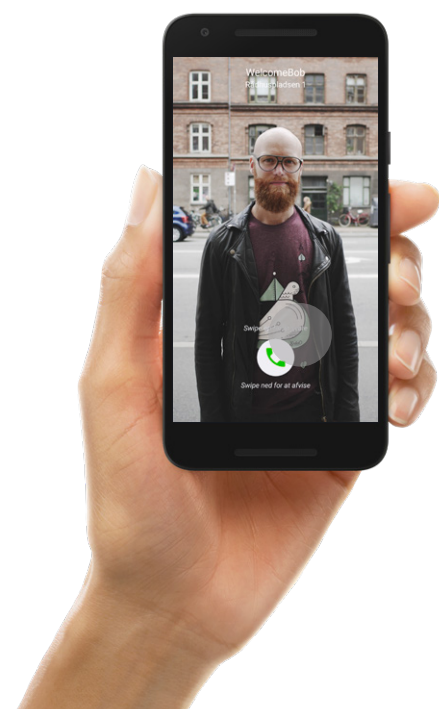

Down by the door, the status of the call is displayed, just as it is also communicated via audio that the call is in progress.

When the called person press unlock in the WelcomeBob app, this screen is shown on the intercom and the door is unlocked.

By answering the all, the WelcomeBob app is opened and the recident can see, talk to and open the door for the guest.

By pressing unlock, the unlock synbol is shown in the app and at the street door. It is thereby easy to see that the door is open.

Invite user to company

Just got a WelcomeBob installed?
WelcomeBob can add administrator access. This gives access to my.welcomebob.com, where you can control all aspects of the intercom.
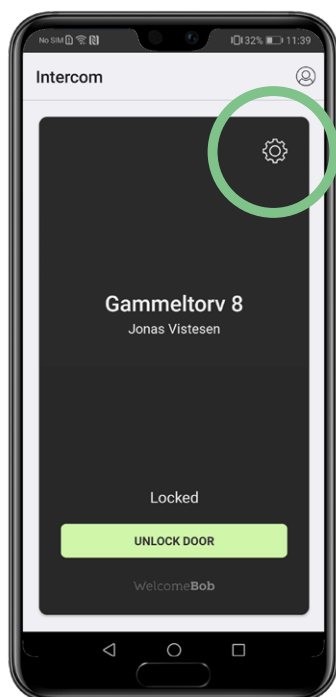

Hierarchy
WelcomeBob has two levels of access on the aop..

Manager: Can add and remove users from a group. A manager can only invite users.

**Users:** Can remove themselves from the WelcomeBob intercom.

Managers og Users are both represented on the intercom and can revieve calls and change their name.

Manager på Android

Manager på iPhone

As a manager, you can invite users to your own apartment.
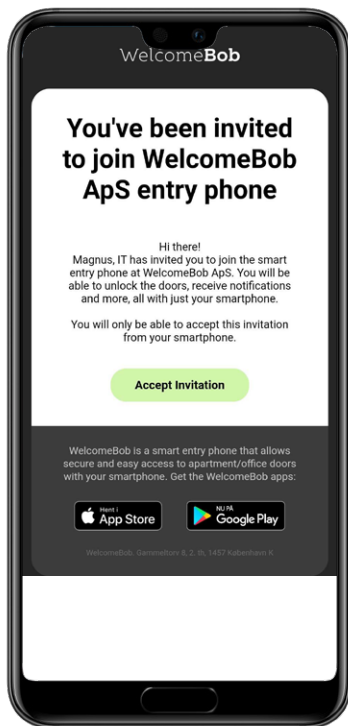

Press the gear icon on the front page of the app.

Invite a person to the intercom by typing their email.

Note: In the online admin panel, your administrator can change roles from users to managers.
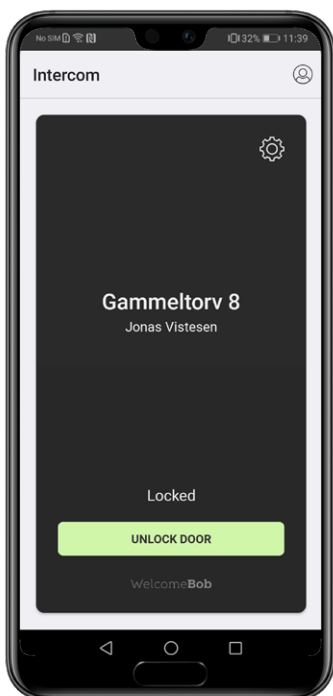

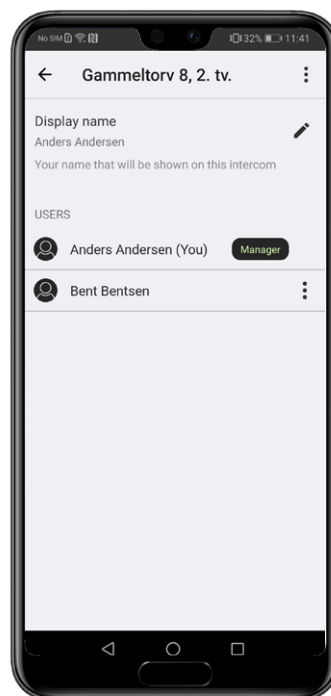

Recieving an invitation

1

When you are invited to WelcomeBob, you will recieve a mail with an installation link. Press the link on your phone and create a user in the WelcomeBob app.

2

When you press the link, your are guided through the onboarding process.

3

After you have been added to a group the app looks like this.
Press the green botton to unlock the door.
Press the gear icon for settings.

4

From the settings menu you can change your name, see who is in your apartment group and invite others if you are a manager.
